Scheduled Publishing

Changes made in events / packages can be published on the website at a later time, from small content changes to listing an event on the website

The screenshot shows two views of an event management interface for an event titled '(GA) Bhishma'.
The top view shows the 'Content' tab selected. On the right, there's a 'Publish' button with a dropdown menu. The menu is highlighted with a red rounded rectangle and has a black mouse cursor pointing to the 'Publish Now' option. The menu also includes 'Publish Later' and a 'Publish Now' button below it.
The bottom view shows the same interface after publishing. The 'Content' tab is still selected, but the 'Publish' button now has three icons: a blue circle with 'English', a red square with a person icon, and a red square with a crossed-out person icon. A message above the 'Publish' button says 'Publishing On Thu, 15 Oct 2020 8:59 PM'.
Both views include tabs for 'Event Info', 'Content' (selected), 'Category', and 'Inventory'. The status bar at the top right indicates 'Saved a few seconds ago, by admin'.

Auto Switching of Ticket Price

Bigtix can auto-switch from one Ticket Type to another when the quota allocated for the previous pricing is met. No manual intervention needed.

The screenshot shows a software interface titled "Ticket Type Details". Under "Sales Settings", the "Regular DP Sun" option is selected. In the "Sales start" section, the "Fixed Date" option is selected, with the date set to "31 May 2020 1:00 AM". There are also options for "Before session start time" and "After session start time" with input fields for Days, Hrs, and Mins. A "Ticket Type Dependency - Optional" dropdown menu is open, showing "Early Bird Day Pass Sunday". In the "Sales End" section, the "Fixed Date" option is selected, with the date set to "6 Sep 2020 8:00 PM". Similar to the start section, there are options for "Before session start time" and "After session start time" with input fields for Days, Hrs, and Mins. The interface includes "Cancel" and "Save" buttons in the top right corner.

Improve Ticket Yield

Sell Package

Either fixed or flexible prices - with the inventory being shared across multiple events and packages, use this to package together parties and dining experiences

The screenshot shows a ticketing interface for Marquee Nightclub. At the top, there's a message: "★ Choose 1 additional event" and a note: "* All timings are in Singapore Standard Time (UTC+08:00)". Below this, there are two event options: "New Year's Eve with W&W" and "Choose 1 additional event". Underneath each option are two images: one for "Marquee x LAVO" and one for "Marquee x KOMA". On the right side of the screen, there's an "ORDER SUMMARY" section for "New Years Eve with W&W + Dinner at LAVO/ KOMA". It includes a description: "Grab your crew for a gastronomic dinner followed by the most epic countdown party of the year with Dutch DJ & record producer duo, W&W!", and details like the date (Thursday, 31 December 2020), time (10:00 PM), presale, and standard entry price (\$\$78.00). At the bottom, there's a "CONFIRM SELECTION" button.

Bundle

Bundles/ single and multi-sessions (passes) - In cases of music festivals, multi-day event, this feature can be used to sell passes or tickets in bulk at discounted price

The screenshot shows a mobile device displaying a ticketing page for "Multi-Day Passes". The offer is titled "Bundle Multi Session" and is priced at Rp. 6,000. There are "BUY" and "BOOK NOW" buttons. To the right, it says "Tickets from Pallas SCBD" and "Rp. 15,000".
